

Connect's Information Sessions: Frequently Asked Questions

What is an Information Session?

Connect's Information Sessions are online presentations, both live and recorded, which help Connect Member parent groups with their roles. They run each week during term-time. We also run occasional Information Sessions with partner organisations.

Are sessions recorded?

Yes! This is so that Connect Members can watch the recordings at a convenient time. During recording, microphones and cameras for attendees are switched off. This means parents and carers who attend will not appear in the recording!

Who can attend sessions?

Our core weekly, term-time sessions are for Connect Members only. We also run partner sessions during the year that are open to all parents, carers and parent groups.

Are sessions only for parent groups?

No - if your parent group has Connect membership, any parent, carer or member of staff from your school can attend the Information Sessions for Connect Members. Places are free but registration is essential.

Can I ask questions?

Yes! We ask you to introduce yourself and put questions using the Chat function. We respond to these during the session when we can. You can also submit questions before or after the session via info@connect.scot.

Should I take notes?

We send out a PDF of the presentation slides with links after the session by email via Eventbrite. Connect Members can also access our Information Session recordings at any time.

Are Connect sessions accessible?

If you have any special requirements for accessing Connect Information Sessions, email info@connect.scot. We are always looking for ways to improve our services.
